

Eugen Heinzelmann

Police of Police of Baden-Württemberg
Head of Subdivision

Panel Session:

“Knowledge Management as a Prerequisite for Sufficient Operations”

Tuesday, January 29th, 11:30-13:30

Curriculum vitae

Mr. Eugen Heinzelmann (46) is a police officer in the county of Baden-Württemberg and employed in the technical department of the Police Headquarters in Reutlingen.

Since 2003 MR Heinzelmann is working for the project POLICE ONLINE/MEPA-Online. In co-operation with other project members he is occupied with the assembly, prototypical development and the performance of diverse applications for an integral knowledge management.

Mr. Heinzelmann was significantly involved in the software development with a standardized corporate identity for the Internet and Intranet platforms used by all police stations in Baden-Württemberg.

He is also responsible for the development of the Internet portal for the Central European Police College MEPA (Poland, Hungary, Slovakia, Czech Republic, Austria, Switzerland, Germany).

Simultaneously to the technical development Mr. Heinzelmann is working as an instructor for all of these computer applications.

Since January 2007 Mr. Heinzelmann is assigned as the project manager for the development and the implementation of a new document management system for the police in Baden-Württemberg with Microsoft Office Sharepointserver (MOSS2007) - also a project of the integral POLIZEI ONLINE/MEPA-ONLINE system.
