

Günther Preis

Ministry of the Interior of Baden-Württemberg
Head of Subdivision

Panel Session:

“Knowledge Management as a Prerequisite for successful Operations”

Tuesday, January 29th, 11:30-13:30

Curriculum vitae

Günther Preis (aged 42) is a police officer and has worked at the academy for the police from Baden-Württemberg in Freiburg since 2005. In the media's centre he is responsible for the production of electronic programmes concerning learning materials.

For the project called POLIZEI-ONLINE he leads the subject matter of e-learning. Furthermore he also manages this topic in the project 'MEPA-ONLINE'.

Mr Günther Preis has recently produced a lot of web-based-trainings (WBT) during this project POLIZEI-ONLINE. The WBTs are aimed at target groups with more than 10,000 users and have been put into practice very successfully for the police in Baden-Württemberg.

Some examples:

“Digital control unit”, WBT for the introduction of digital radio, module A (module B has been designed) and currently the WBT “Islam and extremism”.

The contents that have been produced in Baden-Württemberg are not only important for the police in Baden-Württemberg but also for the other federal states. Therefore these productions are also offered and supported by an external distributor in Germany. In addition Mr Preis takes care of the necessary structures and see that they will be expanded whenever needed.
